

Expert Working Group:

**A review of computer models to aid the design and assessment of IM
performance**

Terms of Reference (2019-2021) - Excerpt

1) Board Sponsor: Ron Hollands

2) Chairman: Didier Picart

3) Task Definition:

The Expert Working Group is to:

- a) Continue collaboration with MSIAC on TEMPER and the ARM software to replace it (transmit our position, ask for specific developments)
- b) Set up a database based on tests to benchmark codes and models (collaboration with MSIAC, literature reviews)
- c) Review computer models based on AOP-39 flowcharts
- d) Continue exchange between EWG members on technical and scientific topics

4) Deliverables:

Publish a report with recommendations and the database determined to benchmark the codes and models.
